SUMMARY

Software Engineer with a strong foundation in **software development life cycle (SDLC)**, **object-oriented programming**, and **JavaScript-based application development**. Hands-on experience in designing, developing, testing, and debugging software applications, supported by professional QA experience that strengthens code quality, reliability, and user-focused delivery. Demonstrates strong learning agility, clear communication, and enthusiasm for building maintainable software solutions.

PROJECTS

SickCo – AI Healthcare Assistant

[\(Live Demo\)](#)

- Designed, developed, tested, and debugged a customer-facing software application following SDLC best practices.
- Analyzed application behavior to identify causes of errors and revised program logic to improve stability and correctness.
- Implemented JavaScript-based application logic, integrated APIs, and managed structured data using SQL-backed storage.
- Documented application flow, features, and technical decisions to support maintainability.

DiviAI – AI Fashion Stylist Landing

[\(Live Demo\)](#)

- Developed and refined a responsive web application using JavaScript, focusing on usability and performance.
- Participated in requirement understanding and translated user needs into functional UI components.
- Tested and debugged UI behavior across browsers to ensure consistent user experience.

TECHNICAL SKILLS

Programming Languages: JavaScript, C++, SQL

Core Concepts: Object-Oriented Programming (OOPS), Abstract Data Relationships, SDLC

Web & Application Development: HTML, CSS, React, REST APIs, JSON

Databases: PostgreSQL, Query Writing, Data Handling

Testing & Debugging: Manual Testing, Regression Testing, Debugging, Root Cause Analysis

Tools & Practices: Git/GitHub, VS Code, Documentation, Agile/Scrum

EXPERIENCE

Keywords Studios

July 2024 – April 2025

QA Tester

Gurgaon

- Performed manual testing of game applications, focusing on gameplay mechanics, UI flows, and user interactions.
- Identified, reproduced, and documented gameplay, UI, and performance defects using structured test cases.
- Collaborated with developers to validate fixes and executed regression testing on new builds to ensure stability.

EDUCATION

Delhi Skill and Entrepreneurship University

Aug 2022 – June 2024

Master of Computer Application from Bhai Parmanand DSEU Shakarpur Campus-II. (CGPA: 8.3 / 10)

Delhi

Guru Gobind Singh Indraprastha University

Aug 2019 – June 2022

Bachelor of Computer Applications from Integrated Institute of Technology Dwarka Sec-9. (CGPA: 9.01 / 10)

Delhi

ADDITIONAL LEARNING & EXPOSURE

- Strong willingness to learn new technologies and adapt to evolving project requirements.
- Clear written and verbal communication and presentation skills.
- Professional, detail-oriented approach to work and collaboration.
